Summary

Full Stack Developer with a Computer Technician degree and hands-on experience building a production web application in **Next.js** and **React**, integrated with a third-party **REST API** (Tokko Broker). Works across frontend and backend with **JavaScript**, **Node.js**, **Python** and **SQL**, using AI-assisted development to ship faster. C1 Advanced English (EF SET), experienced working directly with clients. Seeking a remote **Frontend** or **Full Stack Developer** role.

Core competencies: Frontend Development · Backend Development · React · Next.js · Node.js · REST API Integration · Server-Side Rendering (SSR) · Responsive Web Design · SQL Databases · Python · Chatbot Development · AI-Assisted Development

Experience

Freelance Web Developer — Madero Realty · Buenos Aires · 2026 – Present

- Designed, developed and launched maderorealty.com, a full-stack real estate web application built with **Next.js** and **React**, serving an agency with offices in Puerto Madero and Nordelta.
- Integrated the **Tokko Broker REST API** to fetch and render 400+ live property listings for sale, rent and temporary rental.
- Developed property search with dynamic filters, an interactive map view, saved properties, and contact and valuation forms.
- Improved performance and SEO with **server-side rendering (SSR)** and Next.js image optimization.
- Gathered requirements directly from the client and delivered features end to end, from design to deployment.
- Also produce short-form video content (Instagram Reels, TikTok) for the agency.

Customer Support Representative — Mera Solutions (client: Edesur) · Buenos Aires · 2022

- Managed customer cases and service requests in Salesforce for one of Argentina's largest electricity distributors.

- Handled high-volume customer contact, documenting and following up on each case.

Independent Driver — Uber · Buenos Aires · 2023 - Present (part-time)

Projects

- **REST APIs with Python (Flask)** — personal projects building backend endpoints and data dashboards.
- **Chatbots on Botmaker** — conversational flows with JavaScript logic for automated customer interactions.
- **Arduino electronics** — hardware prototypes combining sensors, microcontrollers and C++ code.

Skills

- **Languages:** JavaScript, Python, Java, SQL, HTML, CSS
- **Frameworks & runtime:** React, Next.js, Node.js, Flask
- **Tools & platforms:** Git, REST APIs, Tokko Broker API, Salesforce (user), Botmaker, WordPress
- **Ways of working:** AI-assisted development (Claude Code, Codex), client communication
- **Hardware:** PC assembly and troubleshooting, Arduino

Education & Certifications

- **Computer Technician (Técnico en Computación)** — Escuela Técnica N°32, San Martín · 2019 - 2023
- **React: De cero a experto** — Udemy ([course](#))
- **Programming** — Aprende Programando · 2021 - 2025
- **Python Programming Fundamentals** — Cisco Networking Academy · 2021
