SUMMARY

Full Stack Developer who designs, builds and ships production web apps for real clients: a real estate platform with 400+ live listings, a customer loyalty system for a barbershop chain, and the landing page of a SaaS product. Works end to end with **React**, **Next.js**, **Node.js/Express** and SQL, from gathering requirements with the client to testing and deployment, using AI-assisted development to deliver fast. Computer Technician degree, C1 Advanced English. Seeking a remote Frontend Developer or Full Stack Developer role.

SKILLS

Languages: JavaScript (ES2023+), Python, SQL, HTML, CSS, Java

Frontend: React, Next.js, Vite, Tailwind CSS, Motion (animations), responsive & mobile-first design, accessibility (axe)

Backend & Data: Node.js, Express, REST APIs, Flask, SQLite, Zod validation, authentication & sessions

Testing & DevOps: Playwright, Supertest, Node test runner, Git/GitHub, Vercel, Docker, Render, AWS (EC2, S3, Lambda)

Practices: server-side rendering (SSR), SEO, web security (Helmet, rate limiting), third-party API integration, AI-assisted development

EXPERIENCE

Freelance Full Stack Developer — Pikaros Barbería 2026 – Present

- Built **Pikaros Club** (demo: pikaros-club.vercel.app), a loyalty web app for a barbershop with two branches in Buenos Aires: admin panel for desktop and customer accounts for mobile.
- Stack: **React 19 + Vite** frontend, **Node.js/Express 5** API, **SQLite** database. Features configurable points, friend referrals, reward redemption, QR membership card, CSV export and backup/restore.
- Hardened the API with Helmet, rate limiting and Zod schema validation; added automated tests with Node test runner, Supertest and Playwright, plus accessibility checks with axe-core.
- Now building the shop's online booking system to replace the one built by an external agency.

Freelance Web Developer — Madero Realty 2026 – Present

- Designed, built and launched maderorealty.com in 2 weeks, a real estate web app in **Next.js** and **React** for an agency with offices in Puerto Madero and Nordelta.
- Integrated the **Tokko Broker REST API** to render 400+ live listings for sale, rent and temporary rental.
- Built search with dynamic filters, an interactive map, saved properties, and contact and valuation forms.
- Improved performance and SEO with server-side rendering and Next.js image optimization; gathered requirements directly from the client and delivered end to end.

Developer & Partner — Beescend (FixBee) 2025 – Present

- Built the landing page for FixBee, a workshop-management SaaS for repair shops in Latin America, with **Next.js**, **React** and **Tailwind CSS**, deployed on Vercel.
- Worked on the platform's backend and on the sales side with workshop owners.

Customer Support Representative — Mera Solutions (client: Edesur) 2022

- Handled high-volume customer cases and service requests in a CRM for one of Argentina's largest electricity distributors.

Also: independent driver at Uber (part-time, 2023 – present) alongside development work.

PROJECTS

- **Developer Portfolio** (wilver-portfolio.vercel.app) — bilingual EN/ES site in Next.js and Tailwind CSS with contact form and downloadable CV; continuous deployment from GitHub to Vercel.
- **Other:** Python REST APIs and dashboards (Flask, SQL) · chatbots with JavaScript logic (Botmaker) · Arduino prototypes (C++).

EDUCATION & CERTIFICATIONS

- **Computer Technician** (Técnico en Computación) — Escuela Técnica N°32, San Martín · 2019 – 2023
- **EF SET English Certificate** — 65/100, C1 Advanced
- **React: De cero a experto** — Udemy · **Programming** — Aprende Programando (2021 – 2025) · **Python Fundamentals** — Cisco Networking Academy (2021)

Languages: Spanish (native) · English (C1, full professional)
